Gender Male | Birth 04/05/1996 | Nationality Italy

### POSITION HELD

Mobile Developer – Web Developer Web – Web Designer

### PRESENTATION

From always passionate about new technologies and programming, I started my career in 2016, constantly expanding my knowledge both thanks to the different work experiences and through my attitude to learning. My goal is to learn and work, at the same time, wherever I am. I think that the best way to learn programming is programming.

In 2020, I won several awards for making an interactive version of my [resume](#).

17/02/2017–31/07/2017

Fast&Clean Srl, Matino (Italy)

#### **Developer and UI/UX Designer**

I developed a management system for calculating offers for calls for tenders, for the assignment of public contracts for works, supplies and services, and for calculating the amount of the total value of the contract estimated by the contracting authority in relation to market prices.

There is also a section for managing employees, calculating their salary on the basis of an hourly rate, taking into account days worked, days off and ROL.

Main Activities Performed

- Creation of company management CMS for internal use for employee payroll calculation
- Creation of brochures, corporate slogans and newsletters
- Advertising video editing

Website Developed

[www.fast-clean.it](http://www.fast-clean.it) (Wordpress)

[www.fast-clean.it/oldsite](http://www.fast-clean.it/oldsite) (HTML+Bootstrap)

Below is a summary of the technologies used:

- PHP
- HTML
- CSS
- JavaScript
- Ajax
- MySql
- Bootstrap

11/07/2016–11/01/2017

Ecorapid Srl, Matino (Italy)

#### **Developer and UI/UX Designer**

I created a management system for calculating the total price of the lots, based on the individual items present inside, taking into account the work done on each of them. There is also a section for calculating the hours worked, based on an hourly rate.

Main Activities Performed

- Creation and sending of promotional newsletters created with Photoshop and Illustrator
- I develop corporate websites with Wordpress and HTML
- Development of web management applications for storage, management and querying of contacts and tenders
